

***Greetings, dear Friends, partners and supporters of NEEW!***

*I am very glad that I can address you once again. I assure you that everything that is being done against me now, everything that limits our communication is the result of the Regression System.*

*And it is also the next stage of testing my Will, my Cause, as well as the Will and Cause of all who believe that light conquers darkness, and good prevails over evil.*

***This is a time of trial for everyone who once supported Progressive Development and NEEW.***

*Now we are seeing how the old system, the Regression system, is trying to involve the population of the planet in a negative state in various ways. Under this system we see how the truth is turned into lies, and white is painted black. But, I am sure, no matter what happens in the world, we can survive.*

*Earlier, in my previous messages, I spoke about what each of us needs to do right now. Each of us, since we play a huge role in the development of the Progress system all together and individually.*

*What is happening in the world now is the result of the actions of heads of many states. **The strongest propaganda aimed at dividing the population into two camps is being used now.***

*Capitalism and Socialism were the “camps” back then, and now they turned into the Collective West and the “offended countries”. These are countries whose leaders did not get a place under the sun. However, who interfered and in what way did they interfere with these leaders?*

***We should be asking a different question. Forces that practically govern and pull the rulers by the ropes, pushing their foreheads against each other, want to create division in the society.***

*In fact, the disassembly of the rulers led to an economic cataclysm around the world. These cataclysms are artificial acts of financial emperors.*

*Who benefits from what is happening? The same rulers who receive billions by pushing their people into an evil confrontation.*

*Therefore, we must all work more harmoniously, faster, doing what’s right.*

**24.02.2022. On this day, we launched the "Evoscent Program".** And on the same day, an unpleasant situation for the whole world arose, which entailed negative consequences like the domino effect.

Nevertheless, **we have done the main thing - we have opened a unique perfume program. No matter what, we are capable of**

- *Saving your networks.*
- *Increasing the growth of your network.*
- *Conducting business in three dimensions at once: online, offline and in crypto-blockchain technologies.*
- *Getting very big Bonuses.*
- *Working in the prestigious perfume business.*

The Evocent program is scarce, that is, it has time limits (maximum 24 months of validity). It gives us the opportunity to build business around the world, in 185 countries.

25% of people in the world have experience in building an MLM and MLCI business. Upon completion of the program, we expect the sale of perfume in the network and stores. It is also an opportunity to become a co-owner of the Parent Company.

Program participants receive gifts for statuses. Add up all of the above and compare it with the market, which is simply crashing right now.

We are a life raft, a long-awaited ship on the horizon for many people, entrepreneurs.

*It is a pity that I am somewhat limited in communication now, I would've been able to build a huge international business in these four months.*

*Dear friends! Building a MLCI business is the best offer in the current situation. It's important to take advantage of this.*

*The situation that is developing in the world should be perceived not so much as an economic tragedy, but as a great opportunity for oneself, one's family, one's environment. This is also an opportunity for NEEW and the World.*

*With the help of the NEEW Program and the current economic situation, we are able to enter every house, every person with a "heart to heart" approach.*

*I have already finished the book "The Best You Can Be in the MLCI Business". Over the next few months, it will be released in Russian, English and Spanish. Anyone who is already an EvoScent member will be able to receive this book. It contains complete instructions and an action plan: how to become a President in MLCI Business in 12-36 months.*

*I will describe all my experience, everything that helps to create a structure with dozens of Presidents and hundreds of thousands of partners in it.*

*You can already help those who are left behind the ship of the economic regressive system. What should you do?*

***These very simple things, today or in the next few days:***

- 1. Dream. Dreaming, dreaming, dreaming is wonderful.*
- 2. Make a wish card - a collage that will help you keep all the most important things in your head.*
- 3. Write a letter to yourself in three years. On December 31, 2025, you will be able to read it and understand how your life and yourself have changed.*
- 4. Make a list of goals for 2-4 years before the same date.*
- 5. Think and collect a list of potential MLCI Business clients with the EvoScent program. How many people are there?*

- *Start holding live meetings with the people you would like to have on your team.*
- *Start hosting live meetings online. **Your goal is to find those who are interested in making good money.***
- *Practice holding home meetings, improve your skills and abilities. And practice holding online meetings too, the more experience you have, the easier it will be to work in the future.*

***Try to automate your business and do not forget to educate those who decide to join your team.***

*What I have listed is very important for your development in the MLCI Business.*

*Exactly 24 years have passed since I first learnt about the Multilevel Marketing business. And all this time I sincerely believed, continue to believe and will believe that the Multilevel Marketing Business is the only type of business that is focused on the fair development of the individual, and this is the only system of progressive development today.*
